

Examples of Work Placement Companies and Organisations of WUAS Students

Work Placement in the bachelor's programmes is a compulsory part of the curriculum and is described in the relevant part of the EEG.

For master's students a period of work placement is optional, and many international students like to take the opportunity to combine their Final Project with a work placement to gain the added experience for their CVs. To this end, a Work Placement Handbook has been developed specifically for master's students.

Below is an overview of examples of companies where WUAS students have completed their work experiences/placements in recent years. Master's students are listed first, then bachelor's students. Hereby, we show how WUAS students are finding Work Placement opportunities in many different companies in diverse business sectors.

Overview of Example Work Placement Companies and Organisations of WUAS Students 2018-2020
