

MBA in Finance

Offered at Wittenborg's Amsterdam Campus

Introduction

The MBA in Finance is for students who are looking to advance their careers in finance management, or pursue a career in the finance sector or relevant department of a company. This programme will enable students to make the leap into management roles from an existing position, or prepare them to take on new responsibilities at management level.

This programme has been designed for those who are ready to make the climb into management roles from an existing job, or for new graduates with some work experience aspiring to become managers.

Wittenborg students come from all over the world, adding a diverse and international perspective to the classroom experience and real-world case studies. Due to Wittenborg's international student body, its professionals and educators, students gain exposure to global networks and constantly acquire fresh insights into business.

Course Content

The Wittenborg MBA is delivered in a 'block format', with 2 modules being covered every 6 weeks. The modules are delivered intensively over consecutive days, which means that

each module has 6 days of teaching, split into two blocks of 3 days. The classes are inter-disciplinary - students study shared modules in semester 1 with MBA students from different specialisations.

Due to the rolling entry (6 times a year), classes are dynamic, highly international and diverse. Teaching methods include group work, case studies, presentations, and live projects. The course is delivered through a variety of approaches including lectures, presentations, tutorials and case studies, with the emphasis on interactive learning. Students acquire research skills that they can apply to academic or industrial projects.

Each module is taught by two lecturers, often a full-time Wittenborg lecturer and a guest lecturer from a partner university. Modules include regular guest speakers from industry.

Core MBA modules address key issues of Marketing Management, Operations Management, Human Resource, and Management Accounting and Finance. The MBA in Finance specialisation modules include Strategic Management, Corporate Finance, Financial & Monetary Economics, and Venture Capital & Private Equity.
