EBA PROGRAMME CURRICULUM

Bachelor Entrepreneurial Business Administration (EBA)

The bachelor's programme in Entrepreneurial Business Administration is aimed at business students who are looking for a BBA with application challenges from the very start. Students are highly motivated and aim to at least try to start and run their own business ventures, and they understand that a broad BBA also provides them with a solid base from which to start their careers or further their academic studies.

The programme contains all the elements of business administration, with an accent on small businesses, start-up venture, leadership and sales. There is also a solid base of accountancy knowledge and skills. The EBA is a further development of the IBA programme specialisation in Entrepreneurship & SME Management (NVAO accreditation 2018), and was accredited by FIBAA in 2013.

In a special double-degree pathway, the EBA is now also possible in combination with the University of Brighton's BSc in Business & Management to offer students a double degree.

PROGRESSION - 3 YEARS OR 4 YEARS

This degree programme will take at least three or four years to complete, depending on: whether students opt for a longer placement period, gain enough credits at the ½-way point, or the block in which students have started.

Projected study time	<p>The programme is planned in 3 phases over 3 years, but also in the standard 4 years.</p> <p>For first-year entry, the absolute minimum study time is 3 years, which is allowed for under the act of higher education for 240-credit programmes. The projected study time is an average of 3.5 years. For Final Year entry (top-up, based on transfer of credits) it is a minimum of 1 year.</p>	
Number of European Credits (ECs)	The programme consists of 240 ECs with 80 ECs per phase.	
Workload per EC	An overall workload per EC of 28 hours.	
Number of modules	<p>The total number of taught modules offered in the EBA/IBA Entrepreneurship & Small Business is 50. Including project Weeks, Work Placement and Final Project, this is 54 (2018).</p>	
Time required for processing the final thesis and awarded ECs	The Final Project module comprises 20 European Credits and has an allocation of 560 hours.	
(Approx.) Number of contact hours including: Taught Modules, Examinations, Exam Review, PDP, Project Weeks, Tutoring, Academic Supervision	Phase 1: 700 Contact hours Phase 2: 610 Contact hours Phase 3: 370 Contact hours	Year 1: 535 Year 2: 500 Year 3: 435 Year 4: 210

TEACHING IN THE EBA

The method of teaching will vary from traditional lectures to interactive workshops, which involve group exercises, case studies and student presentations.

Assessment will differ according to module but it is designed to reflect a working ethos. It will involve essays and exams but also working in teams, giving presentations and evaluating the work of other students.

PHASE 1 - (THEORY)

These years are general freshman years focusing on textbook theory required for all related entrepreneurship & management courses.

PHASE 2 - (FROM THEORY TO PLANNING)

The focus of Phase 3 is moving from theory towards planning and many modules will be examined through cases and planning, e.g. a Marketing Plan for the module Marketing. The year also includes the completion of a Business Plan and other specific Entrepreneurship Modules, as well as an introduction to research methods.

PHASE 3 - (TOWARDS STRATEGY AND PRACTICE)

The Final Phase - in which students study the strategic modules of management, fulfil their special Work Preparation Module, as well as complete the year with their research assignment, the graduation dissertation. Students are also given the chance to test the robustness of their Business Plan in Business Start-ups and Business Plan Execution, as well as instigate a full business start-up in their Work Placement module. Double-degree students will follow a jointly taught curriculum with the University of Brighton.

In the tables below, the curricula of all the Bachelor's in Business Administration Programmes are shown, together with equivalent credits for each module or programme part, and the contact hours for each component. Key to Programme Charts:

Phase 1 = White
Phase 2 = Green
Phase 3 = Pink
