IBA PATHWAY PROGRAMME CURRICULUM

This curriculum overview covers the IBA pathway of the Bachelor of Business Administration:

IBA covering the specialisations:

- Economics & Management
- Financial Services Management
- Real Estate Management
- Logistics & International Trade

THE BACHELOR'S PROGRAMME IN DETAIL

PHASE 1 MODULES

During their first year, students are introduced to the concept of International Business Administration, through basic, introductory modules. Students are introduced to the theory of Business Administration, with modules that form the main building blocks of the programme: Management, Marketing, Finance and Accountancy. Students are introduced to the concepts of starting a business, looking at the business environment, and examining organisations and companies from a worldwide perspective. Languages, such as English, Dutch and Spanish, play an important role, as do intercultural and interpersonal skills. Each student starts a Personal Development Plan, which will continue all the way through the programmes until final graduation.

After completing the first phase of modules in a pathway, students can still easily switch specialisation within the curriculum.

PHASE 2 MODULES

In their second phase, students choose a specialisation in which they will graduate, and then follow modules with research and project weeks in their own field of interest. During this time, they also continue following the main business administration modules, following on from their first year, but now concentrating more on planning issues.

In Phase 2 modules, students are introduced to international aspects of Business and Law and Entrepreneurship. Teaching remains textbook based at this stage.

PHASE 3 MODULES (THE FINAL YEAR)

Students entering their final phase have achieved the required European Credits (ECs), and are ready and able to move on to a different style of education.

There are some continuously taught modules, such as Strategic Marketing, Cost Accounting and Management, Languages, Work Placement Preparation, etc. Tutoring and Personal Development Plans are completed on the basis of individual appointments with personal tutors. The curriculum in the final year has been carefully planned and arranged to allow you the opportunity to complete both your work experience and your graduation programme at one and the same time. All phase 3 modules will be offered twice in an academic year except those with less than 5 students registered for a module. Consult with your tutor if the modules you are planning to study will be offered twice or not.

Your tutor will be able to provide advice in such cases to take a module in subsequent block/semester or a directed study approach.

Students who choose to replace some of their modules of their chosen specialisation with those of another specialisation due to mitigating circumstances can be allowed to graduate with an BBA without specialisation.

In the tables below, the curricula of all the Bachelor's in Business Administration Programmes are shown, together with equivalent credits for each module or programme part, and the contact hours for each component. Key to Programme Charts:

Phase 1 = White
Phase 2 = Green
Phase 3 = Pink

BACHELOR'S CURRICULUM - IBA PATHWAY (3 PHASES / 3 YEARS)

SPECIALISATION: ECONOMICS & MANAGEMENT (3 PHASE / 3 YEARS)

Support Modules (*Pre-requisites for Phase 2, 3, Work placement respectively*)
